Quick access for learners. No sign-in and no typing of the address.

techexplorers.pages.dev

1

Uncover the camera. Open any cover or privacy shutter. The camera light should come on.

2

Allow the camera. Windows: Settings, Privacy and security, Camera, then switch it on.

3

Open the Camera app. Windows: Start menu, Camera.

4

Choose QR code or Barcode mode, not Photo or Video. No such mode? Type the address above.

5

Hold this code flat and steady, 20 to 30 cm from the camera, in good light.

6

Click the link that appears to open Tech Explorers.
